

Course details

- **Created by cyclists, for cyclists.**
- **5 hours** of interactive content: video, text, photos, graphics, animations, & quizzes.
- **Learn from any location**, even on your tablet or smartphone.
- **Complete the course in brief sessions** (your place is saved), or all at once—as you prefer.
- **Receive a Certificate of Completion** when you are done.

“This is such an excellent resource. I’ve been commuting to school / work for 12 years and consider myself to be a pretty good rider, but I learned so much here. I’ve read plenty of things online and even a few books, but this addressed a lot of concerns I had and presented new info in a way that’s easy to comprehend (the graphics and videos helped a lot).

“I liked that I could go back in when I wanted and it kept my place.

“I’ve been trying out what I learned on my rides this week, and it’s already making a big difference. Thanks!”

— Stephen R.

Become an even better guide and example on your family rides, and prepare them for riding on their own.

‘Traffic Smarts for Cyclists’ online courses

Increase your comfort and competence in traffic—even if you’ve been cycling for years.

Rating

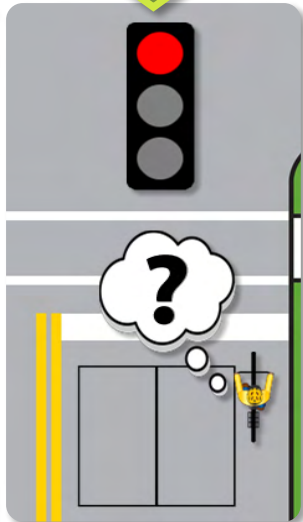

Sample course content

Parked cars:
avoiding the
'door zone'

How to trigger
traffic lights
if they don't detect
your bike.

Ride at least
a door's width
away, plus
1 foot for safety.

or outside
of bike lane

Making turns more safely

Why sign up?

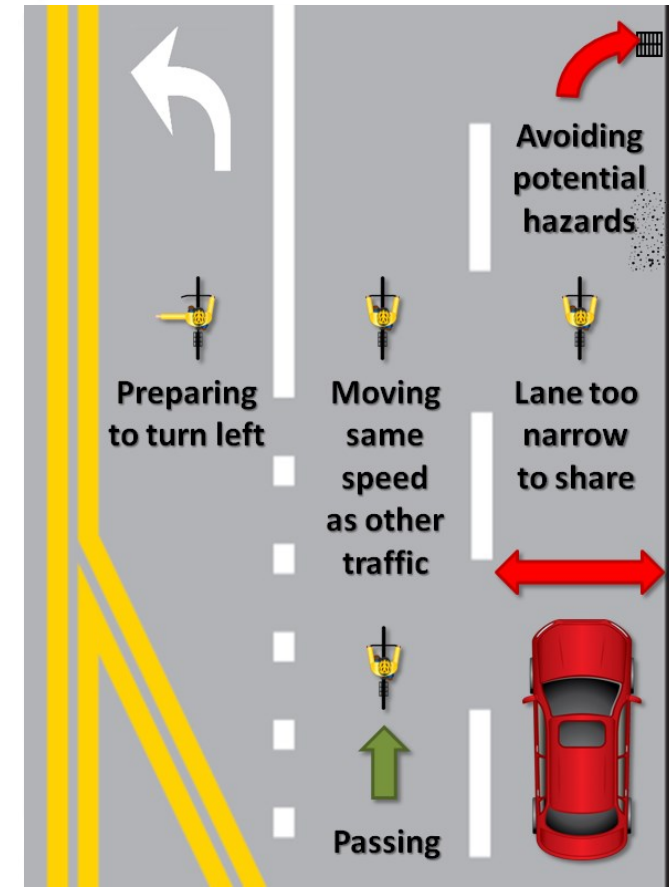

- **Gain** significant skills to help you be more competent & comfortable riding in traffic.
- **Discover** the rights & responsibilities you have while riding your bike.
- **Explore** proven ways to encourage more drivers to respect these rights.
- **Understand** the impact of your actions in traffic, and how you can influence others to cooperate.
- **Reduce** your chances of a crash or collision, or of getting a traffic ticket.

Developed by cycling instructors & instructor trainers around North America, these courses demonstrate best practices that come from countless years of collective experience.

Make each ride safer & more enjoyable.
